### WHO WE ARE

We're occupational therapists specializing in treating individuals with vision impairments such as macular degeneration, diabetic retinopathy, glaucoma and vision issues resulting from stroke.

### WHAT WE DO

We work within the Eye department and collaborate with Optometry and Ophthalmology for a comprehensive approach. Occupational therapy focuses on using remaining vision by teaching visual compensatory strategies and incorporating environmental modifications to help reduce falls caused by vision impairments. Visual adaptations can improve safety and independence with self-care and cooking tasks. We also provide training on assistive technology and optical devices, such as magnifiers and telescopes, to help individuals with vision impairments read mail, see their computer, or watch television.

### REFER A PATIENT

Choose one of these three convenient ways:

- Submit an internal referral through Epic.
- Call us with the referral at (866) 402-2753 or (217) 383-4040.
- Fax a prescription to (217) 383-3567.

### INSURANCE

Patients should contact their insurance provider to determine coverage before making an appointment.

### LOCATIONS

Carle Outpatient Services at The Fields  
3105 Fields South Dr., Champaign, IL  
(217) 383-3360
